2. **50 move rule and 3-fold repetition:** 50 move rule and 3-fold repetition rule automatically enforced.
3. **Overriding Online results:** Be aware of the various positions that are automatically declared drawn by the server. In general, the result prescribed by Tornelo will stand (see the set list of drawn positions). However, there are positions such as the one in the diagram.

With black to play in this position, it is checkmate after h2, then Ng3 for white. With black to play, if black lets his or her time expire, then the server will automatically call this a draw. In the unlikely situation that this or a similar position happens, players may appeal to an Appeals Panel and appeal that they should be declared the winner of the game.

Positions Declared Drawn

The following combinations will result in draws for insufficient material and will be automatically claimed by the server:

K+N vs K+N

K+N vs. K

K+B vs K

K vs. K

K+B vs. K+B (even with opposite-coloured bishops)

K+N+N vs K

The following combinations will result in a draw if the player with the pawn flags down. Note that this goes for any pawn including a and h pawns:
